

# Understand the roles on your health care team.

## HOOSIER PATIENTS WANT TO UNDERSTAND WHO PROVIDES THEIR CARE.

Strong leadership is important for any team. With physician-led health care, nurse practitioners, physician assistants and other professionals collaborate under a physician's leadership to deliver high-quality patient care. Each team member plays an important role.

Unfortunately, patients can become confused by the abbreviations and jargon used in clinical settings, and just want to know they're getting the best care they can.

## TO MAKE THE RIGHT DECISIONS FOR YOUR HEALTH CARE, ASK WHO'S ON YOUR HEALTH CARE TEAM

## WHO'S WHO ON YOUR HEALTH CARE TEAM

### PHYSICIANS

- DO Doctor of Osteopathic Medicine
- MD Doctor of Medicine

### NON-PHYSICIANS

- APRN Advanced Practice Registered Nurse
- CNM Certified Nurse Midwife
- CRNA Certified Registered Nurse Anesthetist
- DNP Doctor of Nursing Practice
- NP Nurse Practitioner
- PA Physician Assistant

## MINIMUM CLINICAL TRAINING HOURS

Each role within your health care team requires a different amount of training.

### PHYSICIAN

10,000 – 16,000 CLINICAL HOURS

### NURSE ANESTHETIST

2,500 CLINICAL HOURS

### PHYSICIAN ASSISTANT

2,000 CLINICAL HOURS

### NURSE PRACTITIONER

500 – 750 CLINICAL HOURS

BELIEVE IT'S IMPORTANT TO KNOW THE EDUCATION AND TRAINING OF THOSE PROVIDING THEIR CARE

UNDER PHYSICIAN LEADERSHIP, HEALTH CARE TEAMS DELIVER HIGH-QUALITY PATIENT CARE

COMPASSION TO CARE

COMMITMENT TO SERVE

QUALIFICATIONS TO LEAD
